Dear Bridgora Recruitment Agency,

I am excited to apply for the Product Owner position at Bridgora Recruitment Agency. With a robust background in product management and ownership, I have successfully led cross-functional teams in delivering user-centric digital solutions. My experience aligns perfectly with your need for a passionate Product Owner who can shape impactful products from ideation to delivery, whether at a junior or manager level.

At Wercflow, I scaled our AI-powered workflow platform to 20,000 users by embedding user feedback into our product development process. This involved leading product discovery, user research, and requirements gathering, ensuring that our solutions met both user and business needs. My proficiency in Agile methodologies and tools like Jira and Confluence has enabled me to effectively manage product backlogs and sprint planning, driving timely delivery of high-impact features.

In my role at resolution, I led the development and launch of over 25 SaaS applications, serving more than 2.5 million users. This experience honed my skills in stakeholder engagement and product roadmap management, allowing me to define product vision and success metrics aligned with business strategy. I am particularly proud of my ability to mentor junior team members and foster a strong product culture, which I believe is essential for any successful product team.

I am eager to bring my expertise in product management to Bridgora Recruitment Agency and contribute to your mission of delivering exceptional digital products. I look forward to the opportunity to discuss how my background and skills can align with your team's goals.

Best,

Isaiah Pegues
